

Are we meeting your needs?

Have your say

What to expect

We will work with you to assess how best to resolve any concern or complaint in an open and transparent manner. Where appropriate, we will investigate your concern or complaint to understand what happened and why and to find ways to prevent it from happening again.

You can help us by providing as much relevant information as possible and letting us know what outcome you are seeking from your complaint.

What we will do

We will keep you informed about the progress of your complaint along the way and advise you of the outcome.

Let's talk

We take all feedback seriously and want to understand how we can best deliver services to you. You are welcome to speak directly to our staff or management if you have any issues you wish to raise. This is the best option to address and resolve concerns quickly and effectively.

If you would like to raise a serious concern more formally, you can put it in writing and send to the relevant manager. There are suggestion boxes at sites where this form can be placed, or you can hand to reception. We also welcome feedback via email and phone.

If you have a concern, chances are you are not alone.

Your feedback could make us aware of problems we don't know about. So, we want to hear from you.
